

We Aren't Just Another Meter Company

- + We are one of the the largest water and gas meter manufacturers worldwide.
- + We lead the industry in submetering sales and installations.
- + We employ multifamily industry experts.

We Are Minol

Minol is one of the largest Metering, Billing, Conservation and Energy Management providers with 3,200 employees and 40 offices worldwide. Our team brings more than three decades of multifamily metering and installation experience to your project. We may be the largest but you will never feel like a number because of the individual attention each customer receives.

Multifamily Meters for Water, Gas and Electric

All Minol team members are highly-trained in the latest metering technologies. All projects undergo a thorough plan review from our team of experts before you receive a proposal-insuring that you receive the right solution that meets regulatory guidelines and stays within your budget.

All we need to get started on your proposal is project site information and MEP plans. That's it. I will take it from there.

What You Can Expect from the Minol Team

- Quality meter and AMI installations
- Non-proprietary solutions
- Knowledgeable and responsive Project Manager
- In-house compliance
- Ongoing meter and AMI service and support

Minol can also help owners recover their utility expenses with a custom billing program that maximizes recovery. Each account is assigned an internal Client Relations Manager and Utility Billing Analyst so we are only a phone call away – not an outsourced, automated system, phone bank away.
